

# INFRAPEN

## Mini Infrared Temperature Pen

Small and handy - infrared temperature measuring instrument in pocket size. Comes with laser pilot light for a temperature range between -20 ... 500°C. The clip at the rear of the unit allows to handle it like a pen.

**-20 ... 500°C**

**very small and handy**

**with laser-pilot-light**

**Made in Germany**

Technical Details	INFRAPEN
Temperature range	-20 ... 500°C
Spectral range	8 ... 14 µm
Dimensions, Weight	163 x 27 x 16 mm, 50g
Accuracy	± 1 % of the measured value
Repeatability	0.5 % of the measured value
Response time	500 ms
Emissivity	adjustable between 30 ... 100 % in 1 % steps
Functions	Normal, MAX, MIN, AVG, HOLD
Display resolution	0.1 °C
Ambient temperature	0 ... 50 °C
Relative humidity	10 - 95% , non condensing
Laser	Class II
CE-Mark	in accordance with EU-regulations
Order No.	7 810 500
